

## Corrigendum

Mosbacher J.B., Desforges J.-P., Michelsen A., Hansson S.V., Stelvig M., Eulaers I., Sonne C., Dietz R., Jenssen B.M., Ciesielski T.M., Lierhagen S., Flaten T.P., Le Roux G., Aggerbeck M.R., & Schmidt N.M. (2022). Hair mineral levels as indicator of wildlife demographics?—a pilot study of muskoxen. *Polar Research*, 41. <https://doi.org/10.33265/polar.v41.8543>

The article “Hair mineral levels as indicator of wildlife demographics?—a pilot study of muskoxen” (2022) has been corrected to include two additional authors (Sophia V. Hansson and Gaël Le Roux) and an expanded Acknowledgements section that now thanks Frederic Candaudap and Aurélie Marquet for assistance with the ICP-MS analyses. These revisions correct regrettable oversights on the part of the authors.
